

Project Tech

"From 58 Murders/Day to Zero
Tolerance Zones"

Turning Street Lights into Safety Lights"

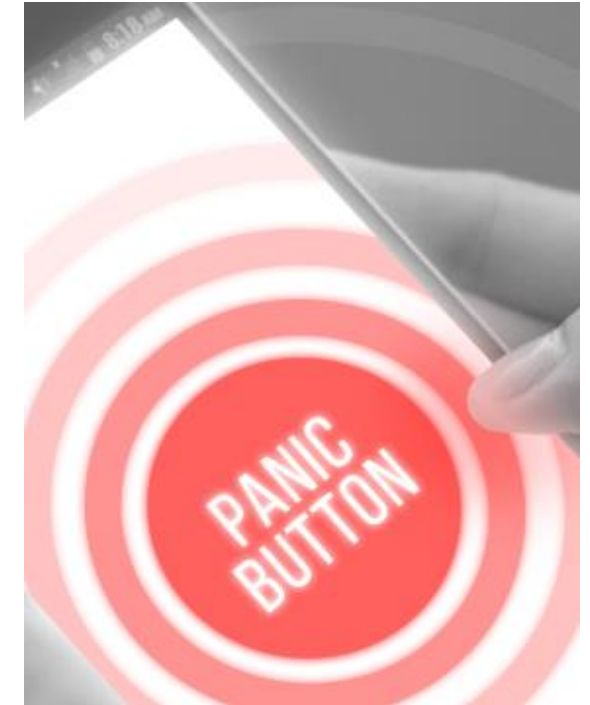

THE PROBLEM: CRIME & LAWLESSNESS

-
- 58 murders per day** in SA | 1,487 murders in Gauteng alone Jan-Mar 2026
 - 2. **Response time kills**: Police arrive after crime. Communities wait 30-60min for backup
 - 3. **Unemployment + Crime cycle**: 32.9% unemployment → desperation → more crime in townships
-
- Fact: Most murders happen in public places, streets & outside homes
-

OUR SOLUTION - PROJECT TECH AI SHIELD

- **LAYER 1: AI CAMERA NETWORK****
- - Project Tech AI detects weapons, fights, loitering = 96.3% accuracy
- - Predictive heat maps + auto-alerts BEFORE crime happens
- ****LAYER 2: COMMUNITY APP "PANIC DOUBLE TAP"*****
- - 100% FREE. USSD + Lite mode = no data needed
- - Double-click → Instant alert to:
 1. Community WhatsApp group
 2. 5 Nearest Street Patrollers - GPS location
 3. SAPS control room - live camera feed included
- ****LAYER 3: JOBS + COMMUNITY OWNERSHIP****
- - Unemployed members hired as trained Street Patrollers
- - Community pays small monthly fee → patroller stipends
- - Money stays in community. Community protects community

WHY IT WORKS - REAL FACTS

- ****WHY AI + COMMUNITY WINS****
- 1. ****Proven reduction****: CCTV = significant decrease in crime, especially residential areas.
- 2. ****Cost effective****: Preventing 1 crime via AI CCTV, free to install.
- 3. ****Still work during loadshedding, installed with solar panel.**
- 4. ****Fear reduction****: 10% more cameras = 0.2 unit increase in public safety
- 5. ****Active monitoring****: Systems with live monitoring work better than passive recording.
- ****Result****: Crime has nowhere to hide. 2 layers > 1 layer.

IMPACT - CRIME + JOBS

- ****FIGHT CRIME:****
 - - Faster response: 60sec patroller arrival vs 30min police
 - - More arrests: Live feed = evidence + higher conviction rate
- ****CREATE JOBS:****
 - - Hire unemployed youth as paid Street Patrollers
 - - Training + stipends funded by small community contribution
 - - Economic boost: Money circulates locally instead of leaving township
- ****BONUS:**** Uses existing street light power = low install cost

CALL TO ACTION

- ****Phase 1:** Pilot 50 AI cameras + 20 patrollers in 1 high-crime zone**
- ****Phase 2:** Scale to all street lights + traffic lights in Emfuleni**
- ****Phase 3:** Connect to SAPS + expand to Gauteng**
- ****We are Project Tech. We don't wait for safety. We build it.****
- **"58 murders per day is 58 too many. Join us."**
